

300NEO

Reliable and secure
direct-to-card printing.

300NEO

Robust, durable and reliable, the 300NEO is perfect for schools, colleges and medium sized businesses that print up to 10,000 cards per year.

The 300NEO is easy to keep up-to-date with the latest features and fixes as and when they're available and its firmware analyses the colours sent by the driver and the film type fitted and prints the panels in a sequence so that film panels are not wasted.

Pioneering security -

- HoloKote® - a security watermark can be printed across the card surface. The 300NEO comes with 4 standard designs and allows you to add up to 4 custom designs such as your company logo, or another unique security design.
- Digital shredding™ - once information has been used for a print job, it is fragmented and dispersed, rendering it irrecoverable, addressing the worldwide demand for regulation of personal information.

Remote management - manage all aspects of printer set-up, maintenance, diagnostics and operation. Remotely monitor printer usage and consumables status.

Ethernet	Threat benchmarked			

Remote management & control

The 300NEO uses the latest version of Magicard's Clix remote user interface, giving users remote control of the device to manage all aspects of printer set-up, maintenance, diagnostics and operation.

The simplest 'plug and play' set on the market combined with easy control of device settings, it helps with the management of supplies and enables proactive ordering mechanisms to be established.

Clix allows for remote monitoring of activity and the status of the printer and its consumables from any web-enabled device on the same network.

Warranty

The 300NEO comes with a 2 year MagiCover NEO Limited Warranty.

Software

Magicard's easy to use badging software for the Magicard NEO range.

Commitment to the environment

Whether through carbon offset or actively seeking to reduce the individual footprint of devices, Magicard's approach is driven by recognition of the importance of environmental issues to consumers worldwide.

Magicard's support of One Tree Planted sees the company plant a tree for every printer sold.

Since entering the scheme, Magicard has planted 30,000 trees resulting in a potential CO² offset of 660 tonnes p.a. This equates to the annual mileage of 150 cars or every journey undertaken by Magicard's global workforce for both personal and professional purposes and a significant proportion of our ground transportation for products worldwide.

Security built in

Digital shredding™ - The 300NEO is equipped with Magicard's 'Digital Shredding' function which renders data sent to the printer unreadable after use – contributing to users' data security and enhancing compliance with GDPR.

Threat benchmarking - scans are run against the comprehensive vulnerability assessment tool, Nessus Pro and push regular updates to the device, ensuring that the printer software and associated system configuration conform to the highest levels of security.

Anti-fraud - The 300NEO comes with 4 standard HoloKote® designs, Magicard's patented HoloKote® security watermark which can be printed across the card surface. When used with HoloPatch® cards, one area of the HoloKote® watermark can be highlighted as a high visibility security seal.

300NEO

Printer specifications

Print mode

Colour dye sublimation, monochrome thermal printing and rewritable technology.

Print speed - single-sided

Colour: 160 cards per hour
Monochrome: 720 cards per hour

Card security

A HoloKote® security watermark can be printed across the card surface, the 300NEO comes with 4 standard designs. When used with HoloPatch® cards, one area of the HoloKote® watermark can be highlighted as a high visibility security seal.

Card capacity

100 input card feeder/hopper
 70 output card stacker/hopper

Warranty**

2 year MagiCover NEO limited warranty

Printer interfaces

High Speed USB 2.0, USB 3.0 compatible - Type B, 10/100 Ethernet.

Driver compatibility

Win 11 / Win 10, 2004 and above, both 32 / 64 bit.
 Windows Server 2022 / 2019 / 2016 / 2012 R2, 64 bit.
 macOS latest version.
 Linux with CUPS support.

Weight

4.98kg / 10.9lb

Power source

24V DC external power supply

Dimensions

215 W x 242 H x 408 Dmm
 8.5 W x 9.5 H x 16 D"

Operating environment

Sheltered office environment 10°C to 30°C / 50°F to 85°F.

Consumables

Part No.
