

600NEO

Hi-res, data-secure
direct-to-card printing.

600NEO

A world-class ID printing solution delivering faster print speeds, stringent security and the finest detail, the 600NEO integrates seamlessly with existing infrastructure to deliver secure processing of ID credentials.

Pioneering security -

- HoloKote® - choose from up to 10 anti-fraud customised HoloKote® watermarks to print on every card.
- Digital shredding™ - once information has been used for a print job, it is fragmented and dispersed, rendering it irrecoverable
- Threat benchmarking - scans are run against the comprehensive vulnerability assessment tool, Nessus Pro and push regular updates to the device, ensuring that the printer software and associated system configuration conform to the highest levels of security.

An eye for detail - capable of printing at 600 x 300 dpi resin only, the 600NEO allows you to include even 5 point text - and make it legible.

Superior quality - The 600NEO offers a wide colour spectrum so printing is more vibrant and colour-rich for a truer representation of the subject.

Remote management - manage all aspects of printer set-up, maintenance, diagnostics and operation. Remotely monitor printer usage and consumables status.

Limited warranty	Edge to edge	600 x 300 dpi capable	Duplex upgrade	Single line encoding
Ethernet	Threat benchmarked	WiFi ready		

Remote management & control

The 600NEO uses the latest version of Magicard's Clix remote user interface, giving users remote control of the device to manage all aspects of printer set-up, maintenance, diagnostics and operation.

The simplest 'plug and play' set on the market combined with easy control of device settings, it helps with the management of supplies and enables proactive ordering mechanisms to be established.

Clix allows for remote monitoring of activity and the status of the printer and its consumables from any web-enabled device on the same network.

Warranty

The 600NEO comes with a 3 year MagiCover NEO Limited Warranty.

Software

Magicard's easy to use badging software for the Magicard NEO range.

Commitment to the environment

Whether through carbon offset or actively seeking to reduce the individual footprint of devices, Magicard's approach is driven by recognition of the importance of environmental issues to consumers worldwide.

Magicard's support of One Tree Planted sees the company plant a tree for every printer sold.

Since entering the scheme, Magicard has planted 30,000 trees resulting in a potential CO₂ offset of 660 tonnes p.a. This equates to the annual mileage of 150 cars or every journey undertaken by Magicard's global workforce for both personal and professional purposes and a significant proportion of our ground transportation for products worldwide.

Security built in

Digital shredding™ - The 600NEO is equipped with Magicard's 'Digital Shredding' function which renders data sent to the printer unreadable after use – contributing to users' data security and enhancing compliance with GDPR.

Threat benchmarking - scans are run against the comprehensive vulnerability assessment tool, Nessus Pro and push regular updates to the device, ensuring that the printer software and associated system configuration conform to the highest levels of security.

Anti-fraud - The 600NEO comes with 10 standard HoloKote® designs, Magicard's patented HoloKote® security watermark which can be printed across the card surface. When used with HoloPatch® cards, one area of the HoloKote® watermark can be highlighted as a high visibility security seal.

600NEO

Printer specifications

Print mode

Colour dye sublimation, monochrome thermal printing and rewritable technology.

Print speed - single-sided

Colour: 190 cards per hour
Monochrome: 750 cards per hour

Card security

A HoloKote® security watermark can be printed across the card surface, the 600NEO comes with 10 standard designs. When used with HoloPatch® cards, one area of the HoloKote® watermark can be highlighted as a high visibility security seal.

Card capacity

100 input card feeder/hopper
 70 output card stacker/hopper

Warranty**

3 year MagiCover NEO limited warranty

Printer interfaces

High Speed USB 2.0, USB 3.0 compatible - Type B, 10/100 Ethernet. Wifi.

Driver compatibility

Win 11 / Win 10, 2004 and above, both 32 / 64 bit.
 Windows Server 2022 / 2019 / 2016 / 2012 R2, 64 bit.
 macOS latest version.
 Linux with CUPS support.

Weight

4.7 kg / 10.4 lb

Power source

24V DC external power supply

Dimensions

211.5 W x 248 H x 475.5 Dmm
 8.3 W x 9.8 H x 18.9 D"

Operating environment

Sheltered office environment 10°C to 30°C / 50°F to 85°F.

Consumables

Part No.
